**M. IMPORTANT INFORMATION:**

**Note:** A change of name to an existing shelf company will cost as extra \$351.00

\* All company officers must be over the age of 18 years. At least one director and any company secretary must ordinarily reside in Australia. An undischarged bankrupt or any person disqualified or banned by ASIC cannot be a company officer or be involved in the management of a company. Contact the offices of MJHC Legal to discuss. If these requirements are not satisfied, the individual **cannot** be involved in the company.

\*\* A company that acts exclusively as Trustee of a superannuation fund is eligible for reduced annual review fees as a "special purpose company".

**Shares**

There must be at least one Member who holds at least 1 share in the company to be established. If the company is only to act as a Trustee, a nominal amount of shares need only be held. For a Trustee Company, a total of 12 shares is a convenient number to be held.

A company can issue different classes of shares. The rights and restrictions attached to shares in a class distinguish it from other classes. Typically a company would issue **ordinary** shares which is one of the standard class titles of available shares. A Trustee Company would usually only issue **ordinary** shares. Other types of shares include bonus shares, preference shares, redeemable preference shares, life governors shares, founders shares, employee shares. If a share class other than **ordinary** is to be issued by the company, you will need to specify clearly in Part J. Additional Information about the rights and restrictions which are to apply to the share class.

**State or Territory of Registration**

A company on registration is required to nominate the state or territory in which it is taken to be registered. It does not have to be the state or territory in which the registered office is located. Where a company is taken to be registered has some relevance where a state or territory law imposes obligations or confers rights or powers on a person or company by reference to the state or territory in which a company is taken to be registered. A state or territory law on stamp duty on share transfers might impose duty on transfers of shares in companies that are taken to be registered in that state or territory. For example, a transfer of shares in a company which is taken to be registered in New South Wales is liable to duty in New South Wales. This is not applicable to a company which is taken to be registered in Victoria. Note that the share transfer would be dutiable in any event if the share register is maintained in New South Wales.
